DÉCOR: EXOTIC BOHEMIAN BEAUTY

Rich colours, exotic flowers and an eclectic mix of your favourite things create an interesting setting for your guests to appreciate. Combine unexpected textures and colours – they will surprise you in the way that they complement each other. The beautiful natural setting adds further layers of interest.

The bold colours, blue glass votives, green wine glass and lamp work in harmony with the silver, and brass metals. The mix of bright colours used for the fabric in the gazebo adds lightness and movement to the metal gazebo, and the crystals on the chandelier add a lovely sparkle. The dark wooden table, candlesticks and elephants create a grounded base for the layers of frivolity.

FLOWERS:

Beautiful orchid blooms add a delicate touch amidst the brighter bolder proteas and roses – the colours in the Peacock feathers are echoed in the votives and green glassware.

TOP TIP:

Discard any preconceived ideas that you cannot use whatever you like to create a rich, warm and interesting table setting – have fun and make it your own.
